## Summary

- Graduate of UNC-Chapel Hill's coding boot camp Professional Certificate program, seeking a position as a software developer with the opportunity for advancement and collaboration within a culture-driven organization. In addition to being a top performer in my coding class I have over 11 years of experience previously leading large dynamic teams to record-breaking results in client-facing settings.

## Technical Skills

- Demonstrated knowledge in several languages, libraries, and standards including React, MySQL, MongoDB, CRUD, REST, OOP, Node.js, JavaScript ES6, jQuery, CSS, and HTML. Master proficiency in entire MS Office Suite & Salesforce CRM.

## Education

### UNC-Chapel Hill | Coding Boot Camp | 2020 | Remote

- Professional certificate in coding. Full-Stack development training. Final average A+, top 5 in class.

### East Carolina University | College of Business | 2004 | Greenville, NC

- Bachelors of Science in Business Administration. Degree in Finance - Double Concentration in Financial Services and Managerial Finance

## Selected Development Work

### Streak & Shade | January 2021

- Repository: <https://github.com/jhf1203/lines>
- Deployment: <https://jhf1203.github.io/lines/>

**Skills Used:** React: Functional Components & Hooks.

**Project Summary:** A front-end React project I completed in my free time over the holidays of 2020 into 2021, showcasing some residential architectural concepts I've completed as a hobby over the last year.

### BookMarked | December 2020

- Repository: <https://github.com/jhf1203/bookmarked>
- Deployment: <https://bookmarked-jfvg.herokuapp.com/>

**Skills Used:** MySQL (Sequelize), Express, Handlebars, Passport, Lint, Travis, jQuery, CSS, Third Party APIs

**Project Summary:** This was a continuation of our second group project, which was completed as required but was a shell of the above application. Another group member and myself were so excited about its potential that we worked together on it in our free time while completing the final two months of our BootCamp.

### Employee Directory | November 2020

- Repository: <https://github.com/jhf1203/employee-directory>
- Deployment: <https://jhf1203.github.io/employee-directory/>

**Skills Used:** Javascript (React)

**Project Summary:** My first React assignment, to create a dynamic list of employees that automatically updates as filters and sorting are applied.

# **Leadership Experience**

## **Gallery Leader | RH**
